360° – Multi Rater Assessment System

Our Multi-Rater Competency Assessment System is a sophisticated, web-based 360° feedback solution that allows you to customise your feedback based on your organisational competencies.

It's a simple approach to employee development that significantly reduces resource demands and gets better results – faster.

Our 24X7 support system and status updates allow participants and sponsors to keep a tab on progress and milestones.

What gets measured gets improved!

Workplace assessments are increasingly popular tools for collecting information that can facilitate organizational improvement. But choosing the right type of assessment is a necessary first step toward obtaining the right information.

We provide a range of assessments that help you jumpstart your people and organisation development process.

Our assessment products are not an end in itself but more a means to an end. These assessments are world class, proven products through decades of research and validation across industries and cultures.
